Objective

To leverage my foundational knowledge in UI/UX design and development as a fresher, contributing to the creation of user-centric and visually appealing digital solutions. Eager to enhance my technical and design skills while cultivating strong problem-solving, communication, and teamwork abilities in a professional environment. Committed to continuous learning and delivering impactful results that align with organizational goals.

Bachelor of Technology in Electronics and Communication
GMR Institute of Technology | 2020-2024 | CGPA – 8.3
Intermediate in MPC
Ascent Jr Classes | 2018-2020 | CGPA – 8.9
Higher Education in CBSE board
Dr. K.K.R Gowtham E.M High School | Percentage – 78.6%

Technical Skills

- **Frontend**: HTML, CSS, JavaScript, React.js, Bootstrap
- **Version Control**: Git, GitHub
- **Other Tools**: VS Code, Figma, Abode XD

Projects

1. E-Commerce Web Application
Description: Developed an E-commerce platform allowing users to browse, filter, and purchase products securely. Implemented user authentication, cart management, and price filtration.
- **Tech Stack**: HTML, CSS, Bootstrap, JavaScript, React.js
- **Key Features**:
  - Responsive Website
  - Add to cart feature
  - Dynamic routing
- **GitHub Repo**: https://saivishithaarisetti.github.io/rice_selling/

2. Portfolio Website
Description: Designed and developed a personal portfolio showcasing skills, projects, and posts.
- **Tech Stack**: HTML, CSS, JavaScript, React.js
- **Key Features**:
  - Interactive UI with smooth animations
  - Contact form with email integration
  - Different projects and ideas
- **Live Demo**: https://saivishithaarisetti.github.io/saivishitha-s_portfolio/

3. Agriculture Website
Description: Built an agriculture-based website which gives demo sessions to the framers and also the awareness about the sustainable methods in agriculture.
 Tech Stack: HTML, CSS, Bootstrap, JavaScript
- **Key Features**:
    - Can book a demo session
    - Gives sustainable solutions
    - Buy products related to agriculture
- **GitHub Repo**: https://saivishithaarisetti.github.io/agriculture/

Internships & Training
- **UI/UX Development and Designing** | [TechMahindra Foundation] | [4 Months]
    - Assisted in front-end development and UI enhancements.
    - Worked on bug fixes and performance optimization.
    - Gained hands-on experience with React.js and REST APIs.
- **Computer Vision Intern** | [FloMobility-GMR Innovex] | [June2023-Oct2023]
    - Assisted in Python and Machine learning.
    - Worked on bug fixes and performance optimization.
    - Gained hands-on experience on presentation skills and machine learning projects.

Certifications
- UI/UX Development and Designing- [TechMahindra SMART Academy]
- Python & TensorFlow Certification - [Coursera]

Soft Skills
- Quick Learning
- Problem solving
- Effective communication
- Adaptability and continuous learning

Achievements
- Won 3rd prize in JNTUK inter-college south zone athletics.
- Runner-up in college level ROBO race competition.
